## SCHEDULE OF WORK

Description	Done	Comments
1. Inspect all components:-		
• Replace as necessary any faulty parts covered by warranty (parts & time permitting)		
• Report to client on worn or defective parts not covered by warranty and agree cost of remedial work before proceeding in accordance with client's instructions (parts and time permitting)		
2. Inspect cover – clean and treat with vinyl protector		
3. Inspect cover-lifting device <i>(if applicable)</i>		
4. Inspect Ozone <i>(if applicable - Accessory Item)</i>		
5. De-scale Ozone <i>(if applicable)</i>		
6. De-scale Circulation Pump		
7. Check Filters – Degrease filters and clean with high-pressure hose.		
8. Chlorinate spa to clean any bacteria from spa & pipes. Drain and Refill.		
9. Test water & treat as necessary.		

*If part supplied is not under warranty (excluding consumables) agree price with head office and inform client and place value in box and ask Client to sign that he agrees value.*
