### Schedule of Work

Description	Done ✓	Comments
1. Inspect all components:-		
• Replace as necessary any faulty parts covered by warranty (parts & time permitting)		
• Report to client on worn or defective parts not covered by warranty and agree cost of remedial work before proceeding in accordance with client's instructions (parts and time permitting)		
2. Inspect cover-lifting device if applicable		
3. Inspect cover, clean & treat with vinyl protector.		
4. Inspect Ozone and De-scale if applicable (Accessory Item)		
5. Inspect swim jets		
6. Check Filters – Degrease filters and clean with high-pressure hose to remove calcium deposits		
7. Chlorinate spa to clean possible bacteria from spa and pipes. 1/3 drain and refill.		
8. Test water & treat as necessary		

*If part supplied is not under warranty (excluding consumables) agree price with head office and inform client and place value in box and ask Client to sign that he agrees value.*
